TOSHIBA
TW300 PROJECTOR

Project your most
professional image

The TW300 Professional Projector from Toshiba combines high grade specifications with ease-of-use, rugged build quality, wireless connectivity, and a host of smarts to make projection in the commercial world more effective than ever. It's ideal for public venues, boardrooms, school classrooms, and university lecture theatres.

TOSHIBA

PROJECT YOUR MOST PROFESSIONAL IMAGE

The list of smart features in the TW300 Projector will have you projecting your most professional image every time. Its advanced DLP™ technology reflecting 3000 ANSI-lumens of bright light is simple to control via a host of user functions designed for the commercial environment.

Connect over a network with or without wires, or use the built-in USB memory key to deliver content easily without the need for a connected PC. The innovative split screen plus picture-in-picture functionality is just one creative touch you can add to your material.

It's all here, even Blackboard™ – a function that eliminates the white screen by adapting the TW300 to green, grey or black backgrounds. Whilst the rich terminals on the back of its industrial strength design connect with a variety of input sources for a range of content options.
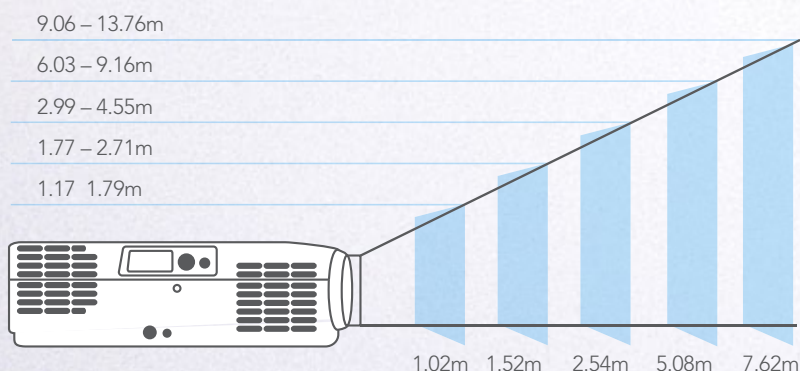

Peace of mind is also projected with a three year warranty and a complete 90 day product and lamp replacement period should a manufacturing fault arise.

KEY FEATURES

– 3000 ANSI lumens for bright commercial environments
– Wireless (IEEE 802.11 b/g) USB, PC card slot and Ethernet LAN
– Password and key-lock protection to guard against unauthorised use
– Natural Colour Enhancer (NCE) for optimised colour reproduction
– Quick-start shutdown for efficient operation
– Auto focus, h/v keystone correction and power zoom
– Blackboard function for non-standard display surfaces
– Three image modes (Bright, Standard, true colour)
– Remote control unit (laser pointer) for simple use
– Lamp access without dismantling the unit
– Rich terminals ideal for conferencing and fixed installation
– Store your own logo to display ahead of presentations
– 3 year warranty with a complete 90 day product and lamp replacement period

Specifications

Model
TW300

Part number
TDP-TW300

Technique
0.7" DMD panel x 1

Resolution
XGA

Brightness
3000 ANSI-lumens

Lamp
300W

Lens
F = 2.4-3.0 / f = 21-31.5mm auto focus

Zoom
Power zoom 1.2x

Picture size (diagonal)
1.0-7.62m

Projection distance
1.2-13.8m

Digital keystone correction
Auto vertical / horizontal

Contrast
2000:1

Input terminal
DVI-I (analogue/digital), RGB (D-Sub), component video (5xBNC) S-Video, composite video, RGB/DVI audio, video/S-Video audio, PC card, USB

Outputs terminal
Monitor (D-sub), audio (stereo mini jack)

Input signal
NTSC, PAL, SECAM
480i, 480p, 576i, 576p, 1080i, 720p
VGA, SVGA, XGA (true), SXGA, UXGA (compressed)

Serial interface
RS-232C (mini DIN8pin), LAN RJ45

Integrated loudspeaker
Stereo 4w+4w

Replacement lamp
TLPLW6

Dimensions (w x h x d)
340 x 115 x 329mm

Weight
4.9kg

Remote control
Standard remote

Extras
User logo, blackboard function, quick start, password and key-lock security functions, USB and PC card memory function, picture-in-picture and split screen

Warranty
3 years parts and labour, 90 days lamp warranty 90 days new product replacement warranty

Accessories
Remote control unit/laser pointer (batteries included), power cord, operating manual including CD-ROM, RGB cable (3m) audio lead, mouse remote control receiver, carry case
